BRINGING VALUE TO YOUR PLANT

About

- Since 1985, our mission has always been to provide our customers with quality products and services. We provide increased value by offering full client support in the design, procurement, installation, and post sales stages of your application. We take pride in having knowledgeable and courteous staff that follow through on our commitment to our customers.

Our expert Sales Team is always there to help our customers select the best technology and equipment to fit both their budget and their requirements, without sacrificing quality or reliability. Our Team of experienced engineers and service technicians are committed to ensuring proper operation in the field.

Metcon has proven itself to be a trusted market leader in environmental and process applications. With ISO9001:2008 certification and T.S.S.A. approvals, we are Quality Focused, Customer Connected.

Featured Applications

■ STARTING THE PROCESS THE RIGHT WAY

Metcon can provide the equipment necessary to ensure the water coming into the plant is properly treated for both domestic and process related use. Whether the plant treats water from its own source or it receives potable municipal water, our treatment and control packages can ensure safe water and avoid major product losses.

Well & Surface Water

- Filtration/Disinfection
- Control/Monitoring

Municipal Water

- Maintaining Disinfection
- Dechlorination
- Control/Monitoring

Cooling Towers/Boilers

- Filtration/Disinfection
- Anti-Scalant & Corrosion Inhibitor Feed
- Blowdown Control

■ HELPING YOU MEET REGULATORY DEMANDS

With tightening environmental regulations and increasing environmental concern about industrial plant effluent, Metcon provides the solutions that can help keep you in compliance, avoiding costly surcharges and fines.

Discharge to Environment

- Packaged systems
- BOD, Phosphorous, Fats, Oils, Grease & Solids reduction
- pH Neutralization
- Lagoon Technologies
